APPOINTMENT.

For G. O. No. 492, June 18, 1923.

No. 492.—Under sections 7 (2) and (3) of the Madras District Municipalities Act, 1919, the Government appoint the Hon. Father D. M. Antonio to be a councillor of the Pollachi Municipal Council.

NOTIFICATIONS.

For G. O. No. 493, May 22, 1923 (G. O. No. 497, P. R.).

No. 493.—In the annexure to this order is given a statement showing the number of doses of lymph issued to the Madras Corporation and other municipalities and the number of operations performed during the three years 1919-20, 1920-21 and 1921-22. The Government observe that in some cases there has been an enormous wastage of lymph, the number of operations being a comparatively small percentage of the number of doses issued. In other cases the number of operations performed is far in excess of the number of doses issued, the inference being that false returns have been submitted. The Government have, in G.O. No. 493, F.P.R., dated 11th May 1923, undertaken to supply lymph free to all local bodies. The chairmen of all municipalities and the President of the Madras Corporation are informed that it is their duty to check wastage and to see that accurate returns are submitted. If the present wastage of lymph continues, the Government will be compelled to reconsider their decision to supply lymph free.

REVIEW OF THE SEA-BORNE TRADE OF THE MADRAS PRESIDENCY FOR THE YEAR 1922-23.

INTRODUCTION.

In the review of last year the state of the market called for careful nursing and attention after the temporary indigestion of the preceding year and it was hoped that the year now under review would see a complete recovery of the patient. However, the disease has been aggravated by complications of disturbed Continental exchanges and the patient is still unable to do anything more than lie quietly, but we may say that he has been slowly but surely gaining strength and here and there during the year we have seen glimpses of his old self. Merchants have restricted themselves to the bare necessities of the market being especially careful not to run any risk of being over-stocked as although prices have been fairly steady there has been a distinct downward tendency in the case of most commodities. As regards the export trade the year opened with good prospects. The figures for April showed the value of the export trade to be Rs. 511 lakhs against an import trade of Rs. 296 lakhs resulting in a favourable balance of Rs. 215 crores. The exchange also at this time remained steadily centering around 1s. 4d. The monsoon had proved beautiful, so that an optimistic view of the future prevailed and it appeared that the trade turn had at last been negotiated. Outside influences, however, began to be felt and the dislocation of Continental exchanges crippled any prospects of a general revival in the principal exports of the Presidency. The German mark for instance, which in April stood at 1,450 to the pound sterling, in September sank to 6,400 and in early March 1923 touched a low figure of 101,500 recovering to 97,500 to the pound sterling at the end of the year. The Continent of Europe was India's best customer but with the abnormal exchanges now prevailing her buying power is badly crippled and until an improvement in that quarter takes place we cannot expect any real revival in the export trade. Notwithstanding the difficulties referred to above the first two months of the year now under review showed a very favourable balance of trade amounting to Rs. 226 crores, and although this figure was not maintained, June was the only month throughout the year which showed an unfavourable balance. The year closed with a favourable balance of Rs. 504 crores against a balance of Rs. 561 crores of the preceding year which goes to show that trade is slowly but surely recovering, and if only some sort of stability in exchange can be effected we shall then look forward with the utmost confidence to a general revival. The monthly changes that have taken place in (1) the value of the foreign imports and exports, and (2) the resulting balance of trade during the past two years are illustrated in the two graphs prefixed to this review. The all-India figures also show a very favourable result, the excess of exports over imports amounting to about Rs. 90 crores against an unfavourable balance of the preceding year of about Rs. 21 crores. The real balance of trade in favour of India if surpluses of treasure, remittances, etc., be taken into account, has been calculated by the Director-General of Commercial Intelligence to be Rs. 75 crores against an unfavourable balance of the preceding year amounting to about Rs. 52 crores. In looking forward to 1923-24 it would

require great optimism to expect anything like a good year but we can confidently anticipate a gradual and steady improvement.

The aggregate value of the sea-borne trade of the Presidency was Rs. 19-16 crores, and showed an increase of Rs. 6-63 crores, or 9 per cent as compared with that of the previous year, and of Rs. 2-20 crores, or 35 per cent as compared with 1913-14. Excluding Government transactions, which showed an increase of Rs. 4-29 lakhs, the value of the trade was Rs. 79-89 crores, a figure Rs. 6-38 crores or 9 per cent higher than that of the previous year. The total value of the foreign trade in previous irregularities increased by Rs. 5-28 crores or 7 per cent over the figure of the previous year, and by Rs. 6-16 crores or 16 per cent over that of 1913-14. Imports, valued at Rs. 20-29 crores, were Rs. 1-43 crores higher than 1913-14, but were Rs. 0-59 crores or 3 per cent less than 1921-22. The decrease was due to smaller receipts of railway materials, cotton twist and yarn, coal, sugar, instruments and dyes, the chief items showing increases being coffee manufactures, metals, machinery, paper and paste-board, precious stones, raw silk, apparel, glassware and rubber manufactures. Exports amounted to Rs. 23-53 crores as compared with

Rs. 24.67 crores in the previous year, an increase of Rs. 3.96 crores or 16 per cent. When compared with 1913-14 the figure showed an increase of 10 per cent. The increase over the previous year's figure was the net result of larger shipments of seeds, leather, raw cotton, tea, coir manufactures, spices, cotton manufactures, oils and metallic ores, partly set off by smaller shipments of raw rubber, drugs and medicines, raw skins, coffee, dyeing and tanning substances and cotton twist and yarn.

Details of movements of treasure are shown in paragraph 54 below. Imports of treasure amounted to Rs. 22.84 lakhs as against Rs. 9.97 lakh. Exports of treasure were valued at Rs. 2.81 lakhs as compared with Rs. 2.18 lakhs in 1913-14.

The country trade in private merchandise rose from Rs. 27.73 crores to Rs. 30.81 crores or by 11 per cent. Exports advanced from Rs. 17.60 crores to Rs. 19.17 crores or by 9 per cent, as a net result of larger receipts of grain and pulse from Bengal, Burma and Siam, raw cotton from Bombay, and smaller receipts of minerals oils from Burma. Exports went up from Rs. 10.13 crores to Rs. 11.44 crores, or by 15 per cent, larger shipments of raw cotton to Bombay, cotton twist to Bengal, and groundnut oil to Burma having contributed to the increase.

2. Balance of trade.—The following table shows the balance of trade in merchandise and treasure under foreign trade during the past four years and during the year 1913-14 :—

3. Customs duty.—The following table shows the gross and net sea-customs revenue, inclusive of the duty on imported salt, realized in the Madras Presidency :—

The total customs duty collected was Rs. 294.47 lakhs, an increase over the previous year of Rs. 95.50 lakhs or 45 per cent. The amount of import duty realized increased from Rs. 139.61 lakhs to Rs. 235.35 lakhs or by 50 per cent owing to the increase in the rate of duty with effect from 1st March 1922 and the imposition of a 5 per cent duty on cotton twist and yarn from that date. There were larger receipts under salt (+ Rs. 21.62 lakhs), railway materials (+ Rs. 8.47 lakhs), cotton yarns (+ Rs. 7.57 lakhs), cotton yarn and thread (+ Rs. 6.95 lakhs), tobacco (+ Rs. 6.31 lakhs), matches (+ Rs. 5.50 lakhs), paper and stationery (+ Rs. 4.17 lakhs), articles of food and drink, excluding sugar and liquor (+ Rs. 3.62 lakhs), motor vehicles (+ Rs. 2.92 lakhs), pneumatic rubber tyres and tubes (+ Rs. 2.45 lakhs), dyas and colours (+ Rs. 2.22 lakhs), precious stones (+ Rs. 1.67 lakhs), raw silk (+ Rs. 1.65 lakhs), chemicals and drugs (+ Rs. 1.45 lakhs), glass bangles and beads (+ Rs. 1.31 lakhs), clothing and hardware (+ Rs. 1.24 lakhs) and liquor (+ Rs. 1 lakh). The improvement under export duty was brought about by an increase of Rs. 2.87 lakhs under tea and a decrease of Rs. 1.32 lakhs under raw hides and skins.

4. **Standard price level.**—The following table shows the variation in the average price of the more important articles of commerce. The mean for the years 1893-95, 1899-1900 and 1900-01 has been taken as the standard price level, viz., 100 :—

[illegible]

Under imports, prices have declined in all cases except kerosene oil and batesulac which showed slight increases. Under exports, coffee, raw skins, tanned hides, groundnut seeds, pepper, tea, raw cotton and cotton twist and yarn showed an advance in prices, while there has been a decided decline in other cases.

FOREIGN TRADE

Foreign Imports.

The total value under this head declined from Rs. 251.93 lakhs to Rs. 199.28 lakhs.

7. Coffee.—Imports expanded from 11,394 cwt. valued at Rs. 6.32 lakhs to 19,764 cwt. valued at Rs. 9.84 lakhs, larger quantities of cheap coffee from the Straits Settlements having been brought into the Presidency mainly via Colombo.

8. Liquors—

Imports of liquors declined by 17 per cent in gallonage and 18 per cent in value as compared with the previous year. The decrease was due to reduced consumption partly on account of the enhanced rates of duty since March 1922 and partly on account of the temperance movement. The trade in ale, beer and porter amounted to 118,065 gallons, a decrease of 13 per cent. The United Kingdom supplied more than 72 per cent of malt liquors, of which 50,798 gallons were ale, 25,046 gallons beer and 4,376 gallons stout, as against 76,491, 18,791 and 8,425 gallons in 1921-22. Imports of cheap German beer improved from 22,404 gallons to 22,754 gallons. The light Japanese beer, which was prominent during the war, has now become extinct.

Under spirits, imports of whisky do not show much variation in quantity which amounted to 49,065 gallons as against 48,933 gallons in the previous year, but the value fell from Rs. 10.20 lakhs to Rs. 9.43 lakhs owing to arrivals of low-priced brands. The imports were mostly from the United Kingdom. The decrease of 5,839 gallons under brandy was due to smaller imports from France and the Netherlands. Of other potable spirits, imports of Chinese spirits showed a falling off in quantity from 26,075 gallons to 18,581 gallons, Java spirits from 11,467 gallons to 6,337 gallons, while gin improved from 6,785 gallons to 7,515 gallons. Only 22,917 gallons of wine were imported as against 49,117 gallons in 1921-22, smaller receipts of port and sherry being mainly responsible for the decrease.

9. Provisions and oilman's stores.—The value of imports under this head totalled Rs. 29.52 lakhs, a slight increase of Rs. 1.84 lakhs or 7 per cent. Preservatives and patent food improved from Rs. 10.06 to 11.22 lakhs, canned and bottled provisions from Rs. 2.65 to 3.76 lakhs and biscuits from Rs. 2.21 to 2.53 lakhs, while condensed milk declined from Rs. 6.42 to 5.45 lakhs. The share of the United Kingdom in the total value of provisions imported improved from Rs. 12.31 lakhs to Rs. 15.71 lakhs and that of the Straits Settlements (consisting mainly of farmaceous food) from Rs. 5.23 lakhs to 6.37 lakhs, while the share of the United States and the Netherlands fell off from Rs. 3.02 and 3.63 lakhs to Rs. 2.11 and 1.11 lakhs.

10. *Spices*.—There was only a small variation in the imports of *spices*, the value of which amounted to Rs. 53-05 lakhs as against Rs. 52-44 lakhs in 1921-22. *Pepper*, as usual, formed the bulk of imports under this head and amounted to 226,719 cwt. valued at Rs. 51-41 lakhs as against 229,203 cwt. valued at Rs. 51-59 lakhs. Imports were divided almost equally between Ceylon and the Straits Settlements.

Foreign Imports.

The quantity of *refined sugar* imported declined by 15 per cent and the value by 21 per cent. The downward trend of prices noticed last year was not maintained during the year under review, and the prices became firm as the active American demand for Cuban crop forced the British refiners to seek other sources such as Java since July last. The local price of white Java sugar, which was Rs. 45-8 per bag of 2 cwt. at the beginning of April 1922, rose to Rs. 47 at the end of August, but went down to Rs. 40 at the beginning of February 1923. Since then there has been a decided rise, the closing price for the year being Rs. 56 as the Java crop came to an end and there was large demand both from Europe and America. Direct arrivals of Java sugar declined from 2,536 tons to 5,542 tons and imports via the Straits Settlements, which were considerable since 1915-17, dwindled to 24 tons. After an absence of five years, imports from Mauritius amounted to 204 tons. The decrease under foreign imports of refined sugar was more than made up by larger arrivals from Java especially from Cebu and Bombay, which rose from 2,416 tons to 11,214 tons. Imports of *malacca* were reduced to 545 tons only owing to large stocks of cheap local jaggery being available for distillery purposes. Imports of *crystalline* slightly improved from 60 to 95 tons, but the value fell by Rs. 0-25 lakh.

12. *Tobacco*.—The total imports were 1,014,253 lb. valued at Rs. 27-65 lakhs as against last year's figure of 993,027 lb. valued at Rs. 27-55 lakhs. There was a further increase in the imports of *manufactured tobacco* from 439,691 lb. to 742,412 lb., of which 344,950 lb. came from the United States as against 286,972 lb. in 1921-22. The increase is chiefly attributable to the expansion in the manufacture of cigarettes in Southern India, several brands having been produced in Bangalore factories from imported leaf. Imports from the Netherlands and the United

Foreign Imports.

Kingdom declined from 87,802 and 14,277 lb. to 48,940 and 8,531 lb. Imports of foreign *cigarettes* also improved from 169,750 to 278,584 lb. owing to increased receipts of high-class cigarettes from the United Kingdom. There were no imports from the United States which supplied 80,603 lb. in the previous year.

II.—RAW MATERIALS AND PRODUCE AND ARTICLES MAINLY UNMANUFACTURED.

The total value under this head increased from Rs. 135-74 lakhs to Rs. 185-21 lakhs.

13. **Coal, coke and patent fuel.**—Imports of foreign coal amounted to 67,544 tons valued at Rs. 19-76 lakhs as against 89,197 tons valued at Rs. 20-43 lakhs. The quantity, though smaller than the record imports of the previous year, was higher than any of the preceding years as there was still a large disparity in the prices of foreign and Indian coal. The chief sources of supply were total (34,563 tons), the United Kingdom (14,603 tons) and Japan (3,452 tons). Imports from Ceylon amounted to 550,327 tons as compared with 302,491 tons in the previous year.

14. **Oils.**—The quantity of foreign mineral oils imported rose from 11,090,306 gallons to 15,010,304 gallons or by 17 per cent, while the value remained almost the same, viz., Rs. 21-87 lakhs. More than 50 per cent of the imports consisted of *kerosene* oil which declined from 7,715,360 to 6,534,317 gallons, of which 4,498,084 gallons represented bulk oil and the remainder came in the shape of those coming from the United States. The decrease was partly made up by larger imports of *Burma* oil which rose from 24,560,265 gallons to 24,784,285 gallons. Imports of *fuel oil* amounting to 5,355,120 gallons have more than doubled, 64 per cent having come from the Straits Settlements, 25 per cent from *Malacca* and the rest from *Persia*. The increased receipts were for use mainly in stationary engines. There was an increase of 292,746 gallons to 1,072,374 gallons in the imports of *lubricating oils*, the consignments being mainly from *Australia*. Imports from *Burma* consisting of light oils amounted to 544,218 gallons as against 814,120 gallons. There were no imports of foreign *petrol*, the sole source of supply being *Burma* whose dispatches amounted to 2,736,194 gallons as against 4,205,223 gallons. The decrease is attributable to large stocks on hand.

15. **Textile materials.**—The imports of *American cotton* amounted to 233 tons valued at Rs. 2-43 lakhs as against 412 tons valued at Rs. 2-01 lakhs. The trade in raw silk showed an expansion from 948,555 lb. to 345,550 lb. in quantity and from Rs. 22-64 lakhs to Rs. 37-28 lakhs in value. The large importation was due to the ever-increasing demand for silk cloth woven locally as there is not a considerable difference in value between this and the cotton fabrics of high counts.

16. **Wool and timber.**—Imports of *teakwood* from *Bam* amounted to Rs. 1-15 lakhs as against Rs. 0-85 lakhs, and *Burma* supplied to the value of Rs. 81-23 lakhs as against Rs. 74-70 lakhs in 1921-22. Of other timber, *Ceylon* supplied *palmyra* rafters and *lumnecilla* logs to the value of Rs. 1-15 lakhs.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value under this head decreased from Rs. 1,945-42 lakhs to Rs. 1,627-73 lakhs.

17. **Apparel.**—Imports increased from Rs. 12-04 lakhs to Rs. 15-27 lakhs. The increase is chiefly noticeable under *gold and silver thread* which rose from Rs. 4-12 lakhs to Rs. 12-34 lakhs, Rs. 5-59 lakhs' worth having come from *France* and Rs. 8-48 lakhs' worth from *Ceylon*. The last figure represents imports by post which were despatched from *France* via *Ceylon*. The parcel came via *Bombay* in previous years. Imports of *apparel paper* declined from Rs. 4-56 lakhs to Rs. 2-49 lakhs while those of *linen* improved from Rs. 1-45 lakhs to Rs. 2-12 lakhs.

18. **Chemicals, drugs and medicines.**—The total value of chemicals declined from Rs. 28-85 lakhs to Rs. 22-85 lakhs in consequence of smaller receipts of *bichromate* of soda partly counterbalanced by larger receipts of *sodium carbonate*, *alum* and *ammonium salts*. Imports of *drugs* and *medicines* rose from Rs. 14-45

lakhs to Rs. 14.97 lakhs. Imports of *camphor* amounted to 217,463 lb. valued at Rs. 4.66 lakhs as against 213,249 lb. valued at Rs. 4.61 lakhs, Japan being the chief source of supply. The average price of camphor was almost the same as in the previous year, viz., Rs. 3 per pound. *Preparatory and patent medicines* declined from Rs. 1.97 lakhs to Rs. 1.59 lakhs.

19 Cutlery, hardware, implements and instruments.—The value of imports under hardware decreased from Rs. 51.12 lakhs to Rs. 45.92 lakhs. The decrease is chiefly noticeable under the composite head "Other sorts" and under *agricultural implements*, while other implements and *tools and implements* showed increases. The share of the United Kingdom and the United States in the total imports declined from 65 and 20 per cent to 64 and 9 per cent, while Germany's contribution was 16 per cent as against 9 per cent. It is interesting to note that German hardware has regained the position in the Indian market and practically ousted America and Japan which gained a footing during the war. Imports of *instruments and apparatus* declined from Rs. 50.35 lakhs to Rs. 24.67 lakhs owing to smaller supplies of electrical instruments as a result of shortage in demand. Imports of *cutlery* declined from Rs. 1.80 lakhs to Rs. 1.15 lakhs.

20. Dyes and colours.—Imports of *dyeing and tanning substances* declined from Rs. 29.92 lakhs to Rs. 25.23 lakhs. Of this total, *aniline dyes* accounted for 58 per cent and *aniline* 35 per cent. Imports of *aniline* amounted to 1,490,922 lb. valued at Rs. 19.59 lakhs as against 1,442,627 lb. valued at Rs. 26.29 lakhs. The decrease was mainly due to reduced imports of the British product, which were handicapped by the increased German shipments sold at cheap rates. There were also large stocks, and as the local press showed a downward tendency the merchants were chary of buying large quantities. The average price of *aniline* declined from Rs. 1-8 to Annas 15 per lb. On the other hand, imports of *aniline* have more than tripled in quantity and doubled in value as compared with 1922-23, the actual figures being 324,511 lb. valued at Rs. 9.31 lakhs as against 98,640 lb. valued at Rs. 4.04 lakhs. The fall in the Home prices stimulated imports. The average price of *aniline* fell from Rs. 4-3 to Rs. 2-9 per lb.

The following statement shows the sources of supply of the two dyes during the past two years and the year 1913-14 :—

Imports from Netherlands and Belgium were probably of German origin. Imports of *paints and painting materials* increased from Rs. 9.45 lakhs to Rs. 11.05 lakhs owing to large supplies from the United Kingdom.

21. Glassware and earthenware.—The import trade under *glassware* expanded from Rs. 13.02 lakhs to Rs. 18.05 lakhs as a result of larger arrivals of *bangles and beads* from Germany, *bottles and plates* from the United Kingdom, and *sheet and plate glass* from the United Kingdom and Belgium. Of the total value of *glassware*, the shares of Germany, the United Kingdom and Belgium increased from Rs. 3.48, 5.87 and 2 lakhs to Rs. 7.55, 6.16 and 3.54 lakhs. Imports of *earthenware* rose from Rs. 4.45 to 9.11 lakhs, the United Kingdom being the chief source of supply.

The total value of imports under this head further advanced by Rs. 13.59 lakhs. The increase is most marked in the sub-heads "Textile machinery" and "Electrical machinery" for which there was a great demand in spite of falling prices. The manufacturers of Home were also in a better position to deliver contracts that were placed just after the war. The increase under textile machinery was due to larger receipts of cotton spinning and weaving machinery for the reweaves in plant and for expansion in the existing Madras City, Bangalore and Secunderabad mills and for the erection of a new spinning and weaving mill at Coimbatore. Large development projects in Mysore and increased installations were responsible for the increased imports under electrical machinery. The fall under power-motors was the result of smaller arrivals of oil, steam and gas engines. The share of the United Kingdom in the total imports of machinery increased from Rs. 179.36 lakhs to Rs. 201.90 lakhs. The contributions of Germany and Belgium amounted to Rs. 6.01 and 4.10 lakhs as against Rs. 8.42 and 6.55 lakhs, while supplies from the United States fell from Rs. 22.42 lakhs to Rs. 15.12 lakhs.

Imports of iron and steel increased by 51 per cent in quantity and 7 per cent in value as compared with the previous year. The increase under bars and channel was chiefly contributed by Germany and Belgium which countries were able to quote lower prices. Larger arrivals of tinued plates from the United Kingdom and the United States, where there was a large output available, led to increased imports under sheets and plates, for which there was a general good demand. The decrease under beams, pillars, etc., was due to reduced shipments from the United Kingdom.

and the United States, and indicates a smaller demand for building purposes. The average price per ton of iron bars and channel and steel bars and channel declined from Rs. 252 and 330 in 1921-22 to Rs. 199 and 170. The price of sheets and plates was Rs. 294 as against Rs. 409 in the previous year. The following statement shows the origin of our supplies by countries:—

The chief feature of the above statement is that while the shares of Belgium and Germany have increased in quantity as compared with the previous year the share of the United Kingdom declined. The contribution of Belgium was greater than the United Kingdom in quantity but less in value owing to low rate of exchange.

Under brass, imports of mixed or yellow metal for sheeting increased by 195 per cent in quantity and 148 per cent in value, the United Kingdom and Germany being the chief sources of supply. Small stocks coupled with lower quotations from Russia led to larger imports. The opening and closing local prices of the year for yellow metal sheets were Rs. 235 and Rs. 308 as against Rs. 400 and Rs. 335 in the previous year. Larger arrivals of ingots and brawlers and sheets were responsible for an increase of Rs. 9.89 lakhs under copper. Imports of aluminium, consisting chiefly of ingots and circles, amounted to Rs. 7.18 lakhs to which the United Kingdom contributed Rs. 4.75 lakhs. Imports of tin, almost the whole of which was block tin, decreased by Rs. 4.35 lakhs owing to smaller shipments from the Straits Settlements.

25. Paper, paste-board and stationery.—Imports of paper and paste-board, expended from Rs. 33.90 to Rs. 17.03 lakhs. The small stocks at the beginning of the year coupled with the fall in the manufacturers' prices induced larger imports. The share of the United Kingdom, and Norway and Sweden increased from 57 and 15 per cent to 66 and 17 per cent respectively, while the share of the United States

Foreign Imports.

declined from 7 to 3 per cent. The contributions of Germany and the Netherlands together were almost the same viz., 3 per cent. Imports of *printing paper* went up by Rs. 5-40 lakhs, *writing paper and envelopes* by Rs. 5-63 lakhs and other kinds of paper by Rs. 4-40 lakhs, while *paper manufatures and parts-bound* declined by Rs. 0-63 and 1-70 lakhs. Imports of *stationery* increased from Rs. 8-30 lakhs to Rs. 10-81 lakhs, the United Kingdom being the chief source of supply.

26. Railway plant and rolling-stock.—There was a decrease of Rs. 33-20 lakhs (from Rs. 214-21 to Rs. 218-01 lakhs) in the imports under this head. The decrease was due to the abnormal figure of the previous year which was swollen partly by the inclusion of a portion of the figures of imports relating to 1920-21 and partly by the arrival in 1921-22 of all the railway requirements contracted for in the same year. The fall in price of the railway materials also accounts for the decrease in value during 1922-23. Imports of carriages and wagons declined by Rs. 59-45 lakhs, locomotive engines and tenders by Rs. 1-01-92 lakhs, while construction materials improved by Rs. 63-20 lakhs, due to heavy receipts for the Tinnevely-Tiruchendur extension of the South Indian Railway and for annual renewals. Of the total imports, the United Kingdom contributed 91 per cent, Western Australia 4 per cent and Canada 5 per cent, the supplies from the last two countries representing wooden sleepers.

The total value of cotton goods exhibited in the above statement representing 23 per cent of the foreign import trade declined by 2 per cent. This statement shows that, while the imports of cotton piece-goods have increased considerably, imports of cotton twist and yarn have greatly declined.

Cotton 'piece-goods' showed an expansion of 58 per cent in yardage and 33 per cent in value as compared with the figures of the previous year. In 1921 there were heavy stocks of all classes of piece-goods lying in Madras which had been bought at very high prices and these acted as a drag on the market for some period. In the beginning of 1922 these stocks were considerably reduced and the dealers and merchants were once again able to turn their attention to fresh business especially as at that time the price of cotton was comparatively cheap. There was a strong demand for all qualities especially of grey goods during the period from April to September 1922. Good profits were made and every one taking advantage

at the low prices was induced to buy. Then however the bottom seemed to drop Foreign out of the market and since October the demand has been poor, stocks have been piled up and losses were made. There seems every likelihood that 1923-24 will be a smaller year to average things down.

The increase of Rs. 81-61 lakhs or 95 per cent in the imports of grey goods was brought about by larger receipts of long cloth and shirtings (+Rs. 50-96 lakhs), jute-texts including madras, muslin and cambrics (+Rs. 25-62 lakhs), and dhatis, saris and saris (+Rs. 25-68 lakhs). The improved imports under these heads were the result of less competition from the Indian mill goods on account of high prices as compared with imported goods. There has been a strong revival of trade under dhatis and saris as Lancashire weaver could turn out attractive borders and headings at a reasonable difference in prices as compared with plain dhatis. Increased arrivals of dhatis, saris and saris (+Rs. 7-27 lakhs), muslins (+Rs. 8-34 lakhs) and muslin (+Rs. 1-45 lakhs) improved the trade under white goods by Rs. 14-61 lakhs owing to a steady demand. Dealers were however caught with heavy stocks when the slump came at the end of the year. On the other hand, the trade under coloured goods went down by Rs. 16-90 lakhs or 24 per cent. The decrease occurred mainly under saris and saris (-Rs. 15-27 lakhs) and prints and dhatis (-Rs. 6-63 lakhs) while cambrics showed a slight increase of Rs. 7-73 lakhs. The decrease under prints and saris was due to the fact that there was less demand for these articles owing to their high prices. Women's saris produced in and around Madras from imported yarns are very much cheaper than the Lancashire printed saris, and importing merchants are finding it practically impossible to compete in this style of goods.

Imports of cotton twist and yarn declined by 22 per cent in quantity and 47 per cent in value, the average declared value having fallen from Rs. 2-15 to Rs. 2 per lb. Grey yarn improved by 15 per cent in quantity while coloured yarn declined by 45 per cent. Under grey yarn, the common counts 32-48 increased by 67 per cent while counts above 48 declined by 20 per cent. The demand of yarn of few counts was great for the hosiery industry, for dyeing yarn and weaving cheaper cloth. Imports in 1921-22 were small as old high priced stocks stood in the way, but its disappearance gave great stimulus for considerable buying in 1922-23. The decrease under finer counts was partly due to large stock and partly to political propaganda. There has been a steady decline under coloured yarn attributable to the revival of country dyeing made possible by larger imports of cheap German dyes.

The United Kingdom supplied 98 per cent of the cotton goods imported, the remainder being distributed among other countries.

Haberdashery and Millinery.—Imports declined from Rs. 4-70 to Rs. 4-38 lakhs, of which Rs. 2-15 lakhs' worth came from the United Kingdom.

Jute and wool.—Imports of jute manufactures consisting chiefly of used gunny bags reimported from Ceylon declined from Rs. 16-71 lakhs to Rs. 9-45 lakhs. Imports of woollen manufactures declined from Rs. 5-91 lakhs to Rs. 5-43 lakhs in consequence of smaller arrivals of woollen piece-goods.

28. Vehicles (excluding locomotives, etc. for railways).—Imports of carriages and carts declined from Rs. 9-59 lakhs to Rs. 1-11 lakhs. Imports of cycles and accessories imported from Rs. 2-45 lakhs to Rs. 6-57 lakhs, 2,781 cycles having been received chiefly from the United Kingdom as against 754. The total value of motor vehicles imported rose from Rs. 59-67 lakhs to Rs. 51-93 lakhs. The number of motor cars increased from 425 to 701, of which 481 were from Canada, and 237 from the United States and 34 from the United Kingdom as against 193, 120 and 57 in the previous year. Imports from Canada and the United States showed increases, as cars from both these countries represented cheap values and there was also better service system and distribution of stocking and spare parts in the case of American production. The high priced British cars could not stand the 50 per cent import duty and hence the decrease in British shipments. The number of motor cycles rose from 110 to 156, of which 109 were of British manufacture and 25 American. There was a decline in the number of motor lorries imported from 160 to 112, the majority having come from Canada and the United States.

29. Minor items.—Imports of arms, ammunition and military stores declined from Rs. 10-44 lakhs to Rs. 6-82 lakhs owing to smaller receipts of fire arms from the United Kingdom and the United States. Imports of books and print-d matter declined from Rs. 7-25 lakhs to Rs. 6-91 lakhs. Under building and engineering

The season's crop which was better than last season's due to the market and consequently the exports consisted mostly of the last year's crop which was the poorest on record. The price of the new crop is reported to be lower than the old crop, the cost of the average plantation coffee at the end of the year being Rs. 37 per cwt. as against Rs. 75 in the corresponding period of the previous year. Shipments to France, the United Kingdom and Belgium declined from 79,837, 85,215 and 10,886 cwt. to 60,348, 55,878 and 4,514 cwt. while those to Mesopotamia and Norway increased from 2,656 and 8,177 cwt. to 5,234 and 11,553 cwt.

34. Fruits and vegetables.—The total value declined from Rs. 4535 lakhs to Rs. 4373 lakhs. Of fresh vegetables, cabbages shipped to Ceylon and the Straits Settlements amounted to Rs. 25-13 lakhs and others mostly potatoes to Ceylon were Rs. 5-65 lakhs in value. The value of dried and preserved fruits, consisting mainly of figs in Ceylon, the Straits Settlements, Egypt and Persia. Grafts, and partly of *Gladiolus demissus* to France and the United States, amounted to Rs. 12-63 lakhs.

Exports of paddy amounted to 3,014 tons valued at Rs. 2-05 lakhs. Exports of rice declined by 4 per cent both in quantity and value. The quantity (50,329 tons) was still less than one-third of the quantity shipped during the pre-war year 1913-14, although the prohibition on the export of rice was removed on the 1st April 1922. The decrease was due to the decreased demand in Ceylon for South Indian rice as rice was largely imported direct from Ceylon and Burma with which South India was not able to compete on account of the comparatively higher prices ruling here. The decrease under other grains was due to smaller shipments of ragi to Ceylon.

Exports of spices rose by 25 per cent in quantity and 29 per cent in value. Shipments of shallots have nearly doubled and amounted to Rs. 26-51 lakhs, Ceylon taking Rs. 10-13 lakhs' worth and the Straits Settlements Rs. 8-27 lakhs as against Rs. 12-75 and 1-89 lakhs. The increase is attributable to charter supplies of Java crop. The increase under pepper was brought about by larger demand from Italy and the United Kingdom, which countries took to the value of Rs. 11-14 and 1-96 lakhs as against Rs. 5-10 and 0-91 lakhs, while despatches to the United

Foreign
Exports.

States declined from Rs. 15-11 lakhs to Rs. 9-55 lakhs. The pepper crop was above the average and the price of the previous year was almost maintained. Exports of pepper amounted to Rs. 8-12 lakhs, the chief consumers being the United Kingdom and the United States.

37. Sugar.—Exports of sugar, 87 per cent of which was unrefined sugar shipped to Ceylon and Amboina, amounted to Rs. 2,948 tons valued at Rs. 6-82 lakhs as against 4,112 tons valued at Rs. 12-10 lakhs. Of the total quantity, 478 tons were brown sugar, 543 tons cane jaggery and 1,566 tons palm-tree jaggery. The area under sugarcane cultivation up to December 1932 increased by 9 per cent and the yield of jaggery (156,760 tons) by 13 per cent, but almost the whole of these were consumed locally owing to low prices of jaggery. During the year, a single consignment of 221 tons of cane jaggery was sent to the United Kingdom in March 1933 when the price showed a tendency to rise.

38. Tea.—The heavy stocks accumulated at Home have at last gone into consumption and the position has greatly improved. Owing to larger consumption, there was a great demand in England where better prices ruled and the exchange was steady. Consequently exports of tea improved from Rs. 27-25 million Rs. to 30-59 million Rs. or by 12 per cent in quantity and from Rs. 178-05 lakhs to Rs. 202-51 lakhs or 14 per cent in value, the average declared value having risen from Rs. 10-5 to Rs. 10-8 per lb. Shipments to the United Kingdom increased from Rs. 139-04 lakhs to Rs. 184-53 lakhs while those to Ceylon, which is a distributing centre to foreign markets, declined from Rs. 25-76 lakhs to Rs. 15-41 lakhs.

39. Minor items.—Exports of silk fell off from Rs. 41-57 lakhs to Rs. 32-15 lakhs and consisted of dried silk and raw silks to Ceylon and the Straits Settlements. Tobacco exports showed a set-back from 4-79 million Rs. to 4-45 million Rs. in quantity while the value rose from Rs. 18-42 lakhs to Rs. 19-76 lakhs. The trade was mostly in leaf tobacco of which the Straits Settlements, Federated Malay States and the United Kingdom took respectively Rs. 7-25, 5-08, and 4-68 lakhs' worth. Shipments of opium improved from 54,965 Rs. to 58,344 Rs.

II. RAW MATERIALS AND PRODUCE AND ARTICLES MAINLY UNMANUFACTURED.

The total value of exports under the head increased from Rs. 993-12 lakhs to Rs. 1,238-18 lakhs or by 25 per cent.

40. Hides and skins, raw.—As usual the share of this Presidency in the exports of raw hides has been trifling; the total exports amounted to only 84 tons valued at Rs. 0-82 lakh. Exports of raw skins receded from 3,329 tons to 2,177 tons in weight and from Rs. 65-48 lakhs to Rs. 51-26 lakhs in value. Almost the whole of the shipments consisted of goat skins, only 69 tons of sheep skins having been exported. Shipments to the United States, Australia, Germany and the Netherlands declined from Rs. 28-14, 10-35, 2-57 and 5-60 lakhs respectively to Rs. 19-68, 9-68, 0-19 and 3-20 lakhs, while those to the United Kingdom and France increased from Rs. 7-70 and 5-62 lakhs to Rs. 10-75 and 7-07 lakhs. The heavy decrease in the shipments to the United States was brought about by a lack of demand as there was a considerable quantity of spot goods lying in the American markets while the trade in the finished leather was dull with prices unusually low. The enormous slump in the exchanges of Germany and the Netherlands was responsible for the fall in these markets. There has been some improvement in the manufacture of gloves in England which accounted for a slight increase in the shipments to the United Kingdom. It is, however, reported that there was not a general demand from British makers except for cheap kinds and prices offered have been appreciably below quotations from Madras. The average price of goat skins increased from 15 annas to Rs. 1-2 per lb. and those of sheep skins from 8 annas to 10 annas.

41. Oils.—The total value of exports under this head improved from Rs. 43-87 lakhs to Rs. 55-04 lakhs. Animal oils (principally fish oil) amounted to 100,280 gallons valued at Rs. 5-10 lakh. Under essential oils, export of lemon grass oil from South Malabar showed a further expansion from 43,731 gallons to 52,231 gallons in quantity and from Rs. 9-15 lakhs to Rs. 9-78 lakhs in value. Of the total quantity shipped, France took 24,125 gallons, the United States 10,107 gallons and the United Kingdom 9,167 gallons. Shipments of sweetened oil from the Mysore factories improved from 1,391 gallons to 5,585 gallons, the United Kingdom absorbing 83 per cent of the quantity. Under vegetable oils, exports of coconut oil, representing 69 per cent of all oil, amounted to 896,547 gallons valued at Rs. 12-40 lakhs as against 955,555 gallons valued at Rs. 25-55 lakhs, a decline of 18 per cent in

quantity and 24 per cent in value. The average declared value fell from Rs. 2-41 Foreign to Rs. 2-6 per gallon. The decrease in exports was mainly due to the resumption of the trade in the raw material upon an abundant terrace was available. The share of the United Kingdom and Belgium declined from Rs. 16-88 and 2-03 lakhs to Rs. 8-53 and 0-65 lakhs, while the share of the United States increased from Rs. 3-55 lakhs to Rs. 4-71 lakhs. The share of Norway which took nothing in the previous year, amounted to Rs. 1-88 lakhs. Exports of rubber oil increased from 60,218 gallons to 130,158 gallons in quantity and from Rs. 1-25 lakhs to Rs. 10-47 lakhs in value. The increase was due to the fact that there was in the United Kingdom a great demand for its use in internal combustion engines. Shipments of *gummi* increased to 25,847 gallons as against 21,735 gallons.

42. *Raw rubber*.—During the latter part of 1931-32 and during the first half of the year under review there was a world-wide slump in prices which led to restricted tapping. It is only during the latter half of the year that prices showed a tendency to rise and normal conditions were restored. Exports of raw rubber amounted to 45,025 cwt. valued at Rs. 39-31 lakhs as against 40,835 cwt. valued at Rs. 52-93 lakhs. The average declared value fell from 11 annas to 8 annas per lb. The share of the United Kingdom, Ceylon and the United States were 27,727, 25,454 and 8,552 cwt., respectively, as against 32,071, 19,541 and 8,101 cwt. in the previous year.

Foreign Exports.

Owing to the abundance of available tonnage there was a revival of the export trade in *seed* which showed an expansion of 24 per cent in quantity and 89 per cent in value as compared with the previous year, and 5 per cent in quantity and 42 per cent in value as compared with the pre-war year 1913-14.

Groundnuts.—More than 82 per cent of the total trade in seeds consisted of groundnuts, which also made up over 22 per cent of the total exports for the Presidency. The quantity (224,629 tons) increased by 7 per cent and the value (Rs. 635-67 lakhs) by 16 per cent and they surpassed the pre-war figures. The area under groundnut cultivation increased by 20 per cent over last year's actual area, under the stimulus of the high prices obtaining during the sowing season and owing to insufficient sowing rains for early food crops. The estimated yield (909,560 tons) showed an increase of 19 per cent. The local price, which ruled at Rs. 63 per French candy f.o.b. for ordinary seed at the beginning of the year, rose to Rs. 72 at the end of April but with some fluctuations declined to Rs. 56 at the beginning of December. It then recovered and went up, the closing price of the year being Rs. 57-8.

France, which is the chief customer, took 70 per cent of the total quantity which was 12 per cent above her previous year's imports. The proportions of other countries were Italy 4 per cent, Germany 1 per cent, Netherlands 5 per cent, the United States and Belgium each 4 per cent. The decrease in the case of Belgium was probably due to supplies from other sources such as Scandinavia.

Exports coastwise amounted to 1,281 tons as against 1,661 tons in 1911-12. The total quantity, both foreign and coastwise shipped at the port of Madras was 99,075 tons as compared with 120,171 tons in the previous year. The following statement shows the total shipment of groundnuts from the principal ports of the Presidency:—

The decrease in exports from the Chief port is attributable to less demand from consuming countries especially France for machine-shelled nuts which are supplied from the Madras Port, their requirements of ordinary kernels having been met largely at the coast ports.

Exports from Pondicherry improved from 18,545 tons to 29,781 tons.

Cashew seed.—The season's crop declined by 6 per cent but there was a large surplus available from the last year's crop. Exports increased by 3 times in quantity as there was a large demand from the United States and Belgium for crushing.

Copra or coconut kernel.—The copra-crushing industry has been greatly developed in the United Kingdom and the Continental countries by war conditions and direct tonnages were largely available. Exports have quadrupled both in quantity and value as compared with the previous year, but the quantity was still a third of the pre-war shipments. The increase under Germany marks the revival of trade which was very considerable during pre-war days. Large demand of copra for edible oil and for margarine industry was responsible for increased trade with the United Kingdom.

Season (61 or 1922).—The crop was better than in the previous year but the trade dwindled to Rs. 1-74 lakhs owing to increased Indian consumption, the coastwise shipments to Rangoon having gone up from Rs. 15-65 lakhs to Rs. 25-07 lakhs. **Other seeds.—**The increase under other kinds was due to larger shipments to the United Kingdom of kharif or sallow seeds from which oil is extracted.

The area under cotton in 1921-22 had been reduced by 17 per cent, below that of the previous year and the yield, which was available for export only in the year under review, had amounted to 347,000 bales, a shrinkage of 3 per cent. Consequently the exported quantity declined by 4 per cent while the value rose by 25 per cent. The decrease in volume was brought about by smaller demand from Madras chief customer Japan, whose appropriations were 57 per cent less owing to the depressed business and unfavourable financial condition of the Japanese market. The increase under the United Kingdom and Belgium was due to the smaller supplies and high prices of American cotton. China's share increased by 27 per cent owing to her small crops and depleted stocks. The price of cotton has increased considerably during the year under review. The spot price of middling American cotton at Liverpool which was 10-6d at the beginning of April 1922 rose to 13d at the beginning of July but went down to 12-2d at the middle of August. Since then there has been a regular rise up to the last week of March 1923 when the price touched 15-5d. The closing price for the year was 15-5d. The local price L.A.B. for cotton (Woods) per caddy of 560 lb. was Rs. 350 in April 1922 and Rs. 580 in March 1923. Exports coastwise, chiefly to Bombay increased from 13,325 tons to 15,577 tons. An analysis of the quantities of the different varieties of cotton exported shows that Timorvalley as usual claimed the largest share (54 per cent) whilst Northern and Western shipped at the Madras port amounted to 41 per cent. Shipments from Coimbatore were 2 per cent. The area and culture of cotton during the year 1922-23, the exportable surplus of which will be available for shipment during the current official year are given below:—

Despatches of *arsenic* declined from Rs. 943 lakhs to Rs. 685 lakhs as a result of smaller shipments to the United Kingdom, Germany and France, but *American demands* increased from Rs. 382 lakhs to Rs. 507 lakhs.

47. *Other manufactures.*—Exports of *cane yarn* and *matting* amounted to Rs. 10742 lakhs as against Rs. 9915 lakhs. The increase is attributable to natural development after the war when *tourage* was available. Shipments to the United Kingdom, Belgium, Germany and Italy increased by Rs. 643, 343, 445, and 189 lakhs respectively.

48. *Dyes and colours.*—The total value of exports of *dyeing and tanning substances* declined from Rs. 1050 lakhs to Rs. 643 lakhs. Exports of *indigo* further declined from 258 tons valued at Rs. 1513 lakhs to 87 tons valued at Rs. 520 lakhs owing to smaller despatches to Egypt and Japan which took the value of Rs. 326 and 945 lakhs as against Rs. 683 and 645 lakhs in the previous year. The increasing competition of synthetic dyes accounted for the gradual decline in exports. Exports of *apocynum* increased from Rs. 621 lakh to Rs. 663 lakh, while those of *acemore* fell from Rs. 316 lakhs to Rs. 284 lakhs.

49. *Hides and skins, tanned or dressed.*—There was a considerable revival in the trade of *tanned skins* and *skins* although it has still to yield place of place as the most important export trade in the Presidency to groundnuts. The volume expanded from 7,916 tons to 12,389 tons, and the value from Rs. 23813 lakhs to Rs. 40952 lakhs. Exports of *tanned skins* increased from 4,163 tons to 6,074 tons or by 52 per cent in weight and from Rs. 8465 lakhs to Rs. 17961 lakhs or 101 per cent in value. The increase was mainly the result of a total clearance of the stocks left on Government hands after the control was withdrawn. At the commencement of the war, business with London was fairly good and a slow but steady improvement had taken place throughout the year, and prices have recorded a steady advance. Of the total quantity shipped, the United Kingdom absorbed 7,945 tons or 63 per cent. Exports of *tanned skins* amounted to 4,615 tons (gross skins 1,355 tons and sheep skins 3,260 tons) valued at Rs. 23731 lakhs as against 5,524 tons valued at Rs. 21348 lakhs, an increase of 14 per cent in weight and 12 per cent in value. During the early period under review, tanned skins were in good demand and high prices ruled both in England and America, which induced tanners in India to produce to the utmost capacity and export. However, during recent months, the London and American markets have declined considerably and goods at spot are slow to move into consumption. The decline of the London market is accounted for to a large extent by the absence of demand from the Continent owing to the adverse conditions

of Continental exchanges. Shipments to the United Kingdom, the United States and Java increased from Rs. 138-17, 10-05 and 6-42 lakhs to Rs. 168-35, 13-35 and 3-29 lakhs, while those to Japan and the Straits Settlements declined from Rs. 43-82 and 14-03 lakhs to Rs. 40-41 and 10-31 lakhs. The following table shows in detail the quantity and average declared value per lb. of the different kinds of tanned hides and skins shipped during the past two years and during the year 1913-14.

50. **Oil-palms.**—The value of Rs. 50-63 lakhs were exported as against Rs. 47-01 lakhs. Shipments of neemam cake were valued at Rs. 39-73 lakhs, groundnut cake Rs. 19-56 lakhs, coconut cake Rs. 1-26 lakhs and castor cake Rs. 0-69 lakh. Ceylon took all the neemam cake, Rs. 12-96 lakhs' worth of groundnut cake and Rs. 0-69 lakhs' worth of castor cake. The United Kingdom absorbed Rs. 3-65 lakhs' worth of groundnut cake.

51. **Yarns and textile fabrics.**—Exports of cotton twist and yarn amounted to 560,375 lb. valued at Rs. 4-48 lakhs as against 1,544,544 lb. valued at Rs. 15-73 lakhs, a decline of 64 per cent in volume and 59 per cent in value. Shipments to China fell off from Rs. 14-17 lakhs to Rs. 5-14 lakhs and the decrease is attributed to the importation in China of cheaper Japanese yarn with which the Indian yarn could not compete.

Exports of cotton piece-goods improved from 69-14 million yards to 85-03 million yards in quantity while the value declined from Rs. 322-03 lakhs to Rs. 219-23 lakhs. Nearly 98 per cent of the piece-goods were coloured piece-goods consisting of lungis, saris and Madras cloth, which amounted to Rs. 215-33 lakhs in value as against Rs. 239-63 lakhs due to a fall in the price of the goods. Shipments to the Straits Settlements, Ceylon and the Federated Malay States amounted to Rs. 145-39, 30-91 and 2-61 lakhs as against Rs. 149-27, 49-45 and 1-06 lakhs in 1912-13. Despatches of grey goods improved from Rs. 1 lakh to Rs. 2-78 lakhs, while those of white goods declined from Rs. 218 lakhs to Rs. 2-14 lakhs. The export trade in Madras handkerchiefs made in hand-loom increased from Rs. 5-73 lakhs to Rs. 22-16 lakhs, almost the whole of which went to the United Kingdom. The increase was due to a fairly steady demand from the United Kingdom where imports were suspended in the previous year owing to trade depression. The exports of woollen goods improved from Rs. 3-68 lakhs to Rs. 11-07 lakhs in consequence of larger despatches of carpets and rugs to the United Kingdom.

IV. LIVING ANIMALS.

52. **Animals, living.**—The value of animals shipped from this Presidency to foreign countries declined from Rs. 26-46 lakhs to Rs. 1-16 lakhs. Exports were divided amongst Ceylon (Rs. 14-45 lakhs), the Straits Settlements (Rs. 1-03 lakhs) and the Federated Malay States (Rs. 0-55 lakh). Thirty-nine horses, 11,702 cattle, 80,345 sheep and goats were exported.

V. POSTAL ARTICLES.

53. **Articles exported by post** declined from Rs. 65-00 lakhs to Rs. 61-93 lakhs, the chief consumers being Ceylon (Rs. 35-62 lakhs), the Straits Settlements (Rs. 8-94 lakhs), the United Kingdom (Rs. 5-08 lakhs), Australia (Rs. 4-31 lakhs) and the Federated Malay States (Rs. 3-59 lakhs).

RE-EXPORTS.

Foreign Trade.

54. The total value of *re-exports* amounted to Rs. 27-51 lakhs as against Rs. 27-68 lakhs in 1931-32. The share of Ceylon was Rs. 20-58 lakhs, the United Kingdom Rs. 7-04 lakhs, the Straits Settlements Rs. 2-95 lakhs, and the Federated Malay States Rs. 1-10 lakhs. Cotton piece-goods sent to Ceylon, the Straits Settlements and the Federated Malay States amounted to Rs. 1-98 lakhs, machinery Rs. 1-76 lakhs, books and printed matter Rs. 1-16 lakhs, hardware Rs. 1-29 lakhs, carriages Rs. 1-25 lakhs, and articles by post Rs. 22-15 lakhs.

GOVERNMENT TRANSACTIONS.

55. The total value of the *Government stores* imported and exported amounted to Rs. 23-52 lakhs and Rs. 1-50 lakhs respectively as compared with Rs. 23-44 lakhs and Rs. 0-67 lakh in the previous year. Under imports, increases are noticeable under cotton piece-goods (+ Rs. 3-43 lakhs), wooden piece-goods (+ Rs. 2-50 lakhs) and chemicals (+ Rs. 1-03 lakhs), and these increases were set off by decreases under metals (- Rs. 4-60 lakhs) and machinery (- Rs. 1-70 lakhs). The variation under exports does not call for any remarks.

TREASURY.

56. *Gold*.—The value of *exports* of gold amounted to Rs. 23-16 lakhs as against Rs. 0-26 lakh. Imports of *bar gold* increased from 5-00 oz. valued at Rs. 11-81 lakh to 1,001 oz. valued at Rs. 0-62 lakh, and these came from the Straits Settlements. Imports of *sovereigns* amounted to Rs. 19-80 lakhs to which Western Australia contributed Rs. 15-80 lakhs, the Straits Settlements Rs. 4-74 lakhs and the United Kingdom Rs. 1-06 lakhs. There were no imports of *sovereigns* in the previous year. Receipts of other coins from the Straits Settlements were valued at Rs. 1-73 lakhs. *Exports* of gold increased from Rs. 0-37 lakh to Rs. 0-60 lakh, of which Rs. 0-59 lakh represented the value of *sovereigns* shipped to Ceylon and Mauritius.

Silver.—Imports of silver consisting mainly of bullion from the United Kingdom increased from Rs. 0-81 lakh to Rs. 0-78 lakh. Exports of silver amounted to Rs. 1-16 lakhs of which Rs. 1-05 lakhs represented the value of Government of India rupees shipped to the Straits Settlements and the Federated Malay States.

Currency notes of the value of Rs. 8,500 were exported to the Federated Malay States as against Rs. 70,000 in the previous year.

The total number of vessels entered and cleared declined from 2,635 to 2,478, but their tonnage increased from 3.06 million tons to 3.42 million tons. The large apparent discrepancy between entries and clearances is due to the fact that many more vessels clear direct to a foreign port than enter direct from a foreign port. Ships arriving at Madras ports after having already touched at a British Indian Port are registered as being in the coasting and not the foreign trade. The average tonnage per vessel advanced from 1,240 to 1,277, a figure still below the average tonnage in 1918-19, viz. 1,539. Excluding the ferry steamers plying between Diamond Harbour and Teknamoor the average tonnage of British vessels entering and clearing was 2,268 and that of foreign 2,517 tons. British vessels accounted for 79 per cent of the whole tonnage, and British India and native craft 2 per cent. The total tonnage of foreign vessels increased from 14 to 15 per cent. Of 173 foreign vessels (entries and clearances combined), 44 were Dutch, 29 German, 19 Italian, 18 American, 17 Swedish, 16 Norwegian, 6 French, 5 Japanese, 5 Japanese and 3 Danish. The number of Native Craft engaged in foreign trade increased from 450 to 506 and their tonnage from 41,355 to 49,636.

Foreign Trade.

Freights.—During the year under review rates on general cargo have, with the exception of the rates on groundnuts and castor seeds, only seen one change. This change occurred at the end of July when a general drop was recorded amounting roughly to Rs. 10. The rate on groundnuts and castor seeds which are shipped from this port on a larger scale than any other produce has been subject to many minor fluctuations due to the somewhat uncertain market for these commodities in Europe. In April of the year under review the rate on groundnuts was \$24 6d, but towards the end of the month the rate dropped to 30s with a further drop to 25s 6d towards the middle of May, this rate continued up to July when a further drop to 25s was recorded. This rate proved to be the lowest for the year and by the first week in October rates again firmed up to 27s 6d and about a week later rose to 30s, the middle of November witnessed a further rise to \$24 6d, and this may be said to be the prevailing rate to the close of the year, with the exception of one or two small periods which were booked at 30s during March when tonnage was slightly in excess of the demand.

Shipping trade rose from Rs. 40 lakhs to Rs. 68-45 lakhs. The increase of Rs. 5-19 lakhs under imports was caused by larger arrivals of grain and pulse and wood, and that of Rs. 2-46 lakhs under exports was the result of increased shipments of groundnut oil (+ Rs. 3-62 lakhs), provisions (+ Rs. 2-55 lakhs) and pulse, while despatches of groundnuts and sugar contracted by Rs. 2-54 and 2-45 lakhs.

Shipping.—Two hundred vessels with an average tonnage of 2,077 entered as compared with 189 averaging 3,114 tons in 1921-22.

Shipping trade declined from Rs. 118-10 lakhs to Rs. 116-31 lakhs. Exports declined by Rs. 1-76 lakhs brought about by smaller shipments of raw cotton (— Rs. 12-85 lakhs) and grain and pulse (— Rs. 1-28 lakhs) and larger shipments of seeds (+ Rs. 13-56 lakhs).

Shipping.—The number of vessels entering increased from 173 to 200 and their average tonnage from 1,970 to 2,256.

Smaller receipts of tin, cotton piece-goods and tobacco entailed the export trade by Rs. 2-01 lakhs. The decrease of Rs. 1-49 lakhs under the export trade was the net result of contractions under rice (—Rs. 10-64 lakhs), postal articles (—Rs. 4 lakhs) and living animals (—Rs. 1-23 lakhs), partly met by expansions under groundnuts (+Rs. 10-20 lakhs), chillies (+Rs. 2-30 lakhs) and fruits and vegetables (+Rs. 1-37 lakhs).

Coasting trade improved from Rs. 31-64 lakhs to Rs. 36-12 lakhs due to increased receipts of grain and pulses and timber.

Other ports.—The increase of Rs. 3-35 lakhs in the foreign trade of Cochin was due to larger despatches of measures and that of Rs. 15-50 lakhs under coasting trade to larger arrivals of grain and pulse and larger despatches of sugar. Increased receipts of grain and pulse coasting and increased despatches of copra in foreign countries raised the total trade of *Badagara* from Rs. 60-93 lakhs to Rs. 84-49 lakhs. The increase of Rs. 2-16 lakhs in the trade of *Porto Novo* was brought about by larger takings of betelnuts from foreign countries, as the despatches of the staple article—groundnuts amounting to Rs. 43-09 lakhs, did not show much variation. The foreign trade of *Pinnapattam* and *Mylapattam* increased by Rs. 19-99 and Rs. 11-17 lakhs respectively as a result of heavier shipments of groundnuts and raw jute and the coasting trade had a set-back by Rs. 22-03 and Rs. 10-35 lakhs in consequence of reduced receipts of grain and pulse.
